TO THE PUBLIC.

Believing that such a little book as this would be found useful to the residents of Richmond County, I am bold enough to publish it; and if it should prove so, I shall feel fully compensated for my labor. To the advertisers who have so liberally aided me, bearing most of the expense, I return my thanks, and hope that the public will make good the outlay by increased patronage.

I am much indebted to Messrs. Geo. J. Greenfield, Frank W. Conner, and the several Town Clerks for their valuable assistance and the uniform kindness they have shown me.

I propose to issue another edition after the County Election, and shall continue to do so from time to time, as the alteration of time tables, &c., &c., may make necessary. I shall use every exertion to make this a valuable advertising medium, and shall endeavor to have the contents reliable and interesting. I shall feel grateful for the correction of any errors that may appear.

Yours, very respectfully,

Henry E. Tudor.

NEW YORK.

A SHORT SKETCH OF RICHMOND COUNTY.

The first mention we have of our beautiful Island, is made by Hendrich Hudson, in his account of his memorable voyage, on which he discovered New York Bay and the noble Hudson. The part of the account relating to Staten Island, or *Staatens Eylandt*, as it was afterwards named, is meager indeed. That it was first seen on the 3d day of September, 1609; that it was inhabited by a tribe of Indians, (Mohicans,) and that Seals were numerous at the back of the Island, is about all that we can learn from his account.

Robins' Reef, off the North-Eastern point of the Island, was a favorite resort of these animals, and derives its name from the fact. It was originally called "*Robyns' Rift*," meaning the Seal's place—*Robyn* being the name used for Seal.

Staten Island was first purchased from its Indian inhabitants for Michael Paun, one of the Directors of the West India Company, together with an extensive tract in Bergen County, New Jersey, by deed dated August 10th, 1620, and the whole tract received the name of *Pavonia*. It was called by its Indian owners *Aquehioneja*, *Manackoug* or *Eghquaous*, which, translated, means the place of *Bad Woods*, referring, probably to the character of its original inhabitants. It was a very desirable spot with the primitive Dutch settlers, and the Indians, who seem never to have considered that they lost

the right of possession by sale, were always willing to convey for a consideration. They resold the Island in June, (19th,) 1642, to Cornelius Melyn, a Dutch Burgomaster, and, subsequently, in 1657, to Baron Van Cappelán. Both of these proprietors made improvements; but the colony founded by the latter was broken up by the Indians from the Raritan, who murdered and dispersed his people. Melyn subsequently obtained the exclusive title, and claimed to be independent of New Amsterdam. He is mentioned as having given Governor Stuyvesant much trouble. On the 14th day of June, 1659, he conveyed his rights to the Company. This Island was again purchased from the Indians by Governor Lovelace, April 18th, 1670, and, from this date, the progress of the colony became uninterrupted and permanent.

Richmond is an original County, and was organized November 1st, 1683, and divided into four towns, all of which were organized March 7th, 1688. It comprises Staten Island, Shooter's Island, and all the Islands of meadow on the West side of Staten Island. It is 14 miles long; its greatest breadth, 8 miles; mean breadth, 5 miles, and is centrally distant 12 miles from New York City. It is separated from Long Island on the East by New York Bay and the Narrows, and from New Jersey on the North and West by the Kill Von Kull and Staten Island Sound. The Kills, as it is usually called, is about 3 miles in length, and connects New York and Newark Bays. The Sound extends some 15 miles, and connects Newark and Raritan Bays. Its course, though devious, is generally South-East; its channel deep, and the tide uncommonly strong. These waters are the usual route of the steamboats plying between Newark, New Brunswick, Amboy, Elizabeth and New York, and as the tide flows from both Bays into the Strait, and from it into both Bays, the navigator never has the tide with him the whole length of the channel. The shores of the Kills are bold, rocky and high; but from Newark Bay for several miles, that of the Island is covered with a broad marsh to the old Blazeing Star Ferry, or Ross-

ville, when it again becomes high and rolling, and so continues to and around Raritan and New York Lower Bays to the Narrows, and upon New York Bay preserves the same character. The Island is based upon primitive rock, which rises in the centre into a ridge, with a breadth ranging from one to two miles, and running longitudinally through the Island. These hills afford varying and delightful prospects. From their summits may be seen on a clear day the ever growing city, with its forest of masts and glistening spires; the broad Bay, studded with Islands and whitened with the canvas of countless ships and myriads of steamboats; Long Island, with its swelling hills and richly cultivated farms; the shining beach of Coney Island; the coast of New Jersey, in a circular sweep of 40 miles, from Paulus Hook to the Nevesink Hills, with Sandy Hook, and last, the wide Atlantic opening between the Hook and Long Island. All combine and form a view unrivaled in beauty, which it is impossible to describe, but must be seen to be appreciated.

Building sites on these hills are held and sold at what seem extraordinary prices, and are being rapidly built upon. In fact, the North-Eastern side of the Island is one perfect garden, abounding with elegant residences, and delightful drives. Among the latter the Serpentine and Ocean Terrace are justly favorites. In a military view, the Island is one of the most important positions on the coast, as it commands N. Y. Bay and the adjacent country. It was so deemed by the British in the Revolutionary War, and was the first place seized by Sir William Howe (July 4th. 1776) and was retained by the Royal forces during the whole contest. Preparatory to the War of 1812 there were erected very extensive and efficient fortifications known as Forts Tompkins and Richmond, and several batteries at the narrows opposite Fort Lafayette. These forts have since been rebuilt in the most approved and substantial manner, and with Forts Lafayette and Hamilton on the Long Island shore, completely command the Strait.

The ponds, wells and springs of the Island contain a soft water, holding no lime in solution. The Island contains some thirty thousand inhabitants, and within its small limits has over thirty churches of various denominations, each having a regular pastor.

CASTLETON,

Located in the North-Eastern part of the Island, contains the villages of New Brighton, Elliottville and Factoryville. New Brighton is built mostly on the shore of New York Bay and the Kills, and is justly celebrated for the unrivaled beauty of its situation. The Pettler Hotel and the Pavilion are large and fashionable establishments, usually well patronised during the summer months. Elliottville is a charming village, situated on the Kills, about half way between New York and Newark Bays. The Sailor's Snug Harbor, a charitable institution for the relief of disabled seaman, is located here. It was founded by Robt. R. Randall in 1801, who bequeathed a landed estate in the city of New York, which has greatly increased in value. The Asylum was opened on the Island August 1st, 1833. The income of the Fund in 1834 amounted to \$32,315 pr annum. An Asylum for the children of the seamen, and a large farm, are connected with the institution.

The Dyeing business is extensively carried on in this town.

M I D D L E T O W N.

This town, formed in 1869 from Castleton and Southfield, contains the villages of Stapleton, Egbertville, Center-ville and part of Tompkinsville. The surface is hilly, affording many fine building sites, which are duly appreciated by merchants from the city, many of them having residences here. The land lies very high towards the North-East part of the township; the hill directly back of Tompkinsville attains an elevation of 310 feet. The mansion of the late Gov. Tompkins is situated on this hill. The "Richmond County Gazette," and the "Staten Islander," weekly papers, are published in this town.

Clifton Park, Silver Lake, and Constant's Brewery are favorite places of resort for thirsty excursionists.

OFFICES OF THE
STATEN ISLAND
FANCY DYEING ESTABLISHMENT,
Nos. 5 & 7 John Street,
(Two Doors from Broadway,)
NEW YORK,
And No. 47 North 8th Street,
PHILADELPHIA.

The undersigned, proprietors of this Establishment, have for a long time (the senior partner of the firm, Nathan Barrett, for 37 years,) been prosecuting their business at STATEN ISLAND. They have spared no effort or expense, especially in the last few years, to excel in all the branches of their art, and have been successful in attaining a high degree of improvement, as well in the machinery and apparatus for dressing different styles of goods, as in practical artistic skill. In dyeing and finishing Ladies' Silk, Satin and Merino Dresses, great improvements have been made. In a large proportion of cases, these articles are made, in color and finish, very nearly equal in appearance to new goods. Crape shawls, Cloaks, Mantillas, Velvet Garments, &c., are also very successfully treated. Faded or stained goods restored or re-dyed.

SILKS AND SILK DRESSES WATERED.

**Silk Dresses and Garments Cleansed successfully
either Ripped or Whole,**

*Lace and Muslin Curtains, Carpets, Rugs and Table Covers
Cleansed and Refinished, Damask and Moreen Cur-
tains Beautifully Dyed Also, Ribbons,
Hosiery, Gloves, &c.*

Located in the North-Western part of the Island, has some good farming land, but toward the West consists of broad marshes. The ground is mostly low and level. It contains the villages of Port Richmond, Mariners Harbor, Graniteville, Chelsea, Long Neck and Springville. The manufacture of steel and white lead are carried on in this town. The oyster business also, furnishes employment to many of the inhabitants.

The Excelsior Poudrette Co. have extensive works at Long Neck in this town.

The excellent ferry accommodations furnished the residents of the North Shore by the new "*People's Line*," affording them almost hourly communication with the City, at a reduced fare, has been of great benefit to this part of the Island.

S O U T H F I E L D ,

On the South-East part of the Island, has a diversified surface, hilly on the North, and level on the South, and contains the villages of Clifton, New Dorp, and part of the County Seat of Richmond. This latter village lies partly in three towns. It is a place of little interest apart from the County Courts, Buildings, &c. An association of gentlemen have extensive grounds in this town, containing a Race Course, Club House, &c. Cedar Grove, on the shore, was formerly a resort for pleasure parties for bathing, &c., but of late years has been but little frequented.

Is located in the South-Western part of the Island. The surface is comparatively level, and the soil a sandy loam mixed with clay. The principal villages are Tottenville at the extreme end of the Island, on the Kills, opposite Amboy, and connected with the latter place by a ferry. It is the terminus of the Staten Island Railroad, which has given quite an impetus to the growth of the place. Biddles Grove in this village is a favorite resort for pic-nics, excursions, &c. Rossville, also on the Kills, about 4 miles North-East from Tottenville, contains many fine residences. In certain parts of this town are unusually productive farms.

IMPORTANT To Farmers and Gardeners OF STATEN ISLAND.

THE BEST & CHEAPEST FERTILIZER OF THE AGE.

Excelsior Poudrette

MANUFACTURED AND PREPARED AT THE

EXCELSIOR POUDRETTE WORKS, LONG NECK,
NORTHFIELD, STATEN ISLAND, (One mile from Bulls Head.)

ALONZO F. MAYHER, Supt.

I take this method of bringing more fully to the notice of Farmers and Gardeners on Staten Island the importance of our fertilizer, (the EXCELSIOR POUDRETTE). We say and mean that we manufacture the *best and most economical*, as well as portable *manure of the age*, and can bring hundreds of the best farmers in Richmond County, who have used it the past season, to indorse all and more than we here say. We have now the greatest facilities for making a *superior article*, (never before had by any other company,) having the *exclusive contract* for 5 years for all the *night soil*, &c., from the cities of Brooklyn, Williamsburgh and Greenpoint, to carry away which requires ten large barges, which we keep constantly running between our factory and those cities. We are also enabled to deliver our Poudrette, either in boats or wagons, as we have one large factory on *Fresh-Kill Creek*, where boats drawing 10 feet of water can come to our docks, as well as one on the upland, at *Long Neck*, which we have for supplying wagons, &c. *We will guarantee the Excelsior Poudrette to surpass any fertilizer that can be produced for the same money either in the garden or field.* Farmers and Gardeners of Staten Island, use the *Excelsior Poudrette* next Spring, and you will not regret it. *Be sure you get the EXCELSIOR*, as it is the best article ever offered to the agricultural community.

Price 25 cts. per Bushel, (in bulk,) or \$1.50 per Bbl.,
(including Bbl., equivalent to about \$10 per ton.)

OFFICE AND DEPOT IN NEW YORK:

194 Front Street, near Fulton.

OFFICE ON STATEN ISLAND:

Poudrette can be had at either place.

ALONZO F. MAYHER, Supt.

N. B.—We are always pleased to show parties around our Works, and explain operations, particularly those prejudiced or doubting what we here say, as we can convince any one of its utility by calling to see us. Circulars giving full particulars and directions furnished on application, by mail or otherwise.  REMEMBER THE EXCELSIOR.
